INTERESTS

Rock climbing | Hiking | Camping

PROFILE

Newly qualified residential drafter with several years' hands-on experience in residential construction and cabinet making. I produce construction documentation in ArchiCAD — site plans, floor plans, elevations, sections, details and roof plans — and I'm continuing to build my knowledge of the National Construction Code, Australian Standards and the WA R-Codes. My trade background means I understand how a set gets built on site.

EXPERIENCE

Cabinet Maker — Self-employed
2025 – 2026

Campervan fit-outs | Perth, WA

- Design and build of complete campervan interiors, from measure-up to final install
- Cabinetry, benchtops, flooring, cladding and fixtures in confined spaces
- Working to fine tolerances where every millimetre is accounted for
- Managing own jobs, materials, costings and client communication

Service Water Technician
2024 – 2025

Ibis Technology | Ascot, Perth WA

- Servicing, maintenance and repair of water treatment systems on client sites
- Fault-finding, component replacement and system testing
- Working independently across the Perth metropolitan area

Carpenter / Trade Assistant
2021 – 2024

Woodworx | Melbourne, VIC

- General carpentry, decking, cladding and renovation work
- Joinery installation — kitchens, vanities and laundries
- Floating floors, skirting and general finishing

EDUCATION

Certificate IV in Residential Drafting — 2025 – 2026
CPP40121 · TAFE

Audio Technician — 2012 – 2014
SAE Institute, France
